# **No. 8. Wage and Salary Earners in Civilian Employment in N.S.W.: Government and Private**

(Excluding Rural Workers, Females in Private Domestic Service, and Defence Forces)

**Notes.**

1. The estimates of employment given in Tables 8 and 9 are derived from three main sources:—

- (a) monthly employment in factories, as recorded in the annual factory censuses;
- (b) monthly returns from governmental authorities; and
- (c) monthly returns supplied by employers for purposes of Commonwealth pay-roll taxation.

These are supplemented by some other direct records of monthly employment (e.g. hospitals) and by estimates of the number of employees outside the scope of the main sources. The numbers of factory employees shown for months subsequent to June, 1959 are estimates which are subject to revision in the light of the results of the factory censuses for 1959-60 and later years.

2. Workers in rural industry, females in private domestic service, members of the full-time defence forces at home or abroad, and National Service Trainees in camp are excluded.

3. The estimates are designed to measure monthly trends in employment in the defined field. They are compiled on an establishment or enterprise basis and therefore do not cover exactly the same area of industry as the industry tabulations compiled on the occasion of a population census from the schedules provided by individuals.

## No. 10. Employment in Larger Private Factories, New South Wales\*

In order to provide a prompt indication of the trend of employment in private factories, a survey of employment in 736 of the larger private factories in New South Wales is made at the end of each month, by joint arrangement between the Secretary of the Department of Labour and National Service and the Commonwealth Statistician. Approximately half of total factory employment is covered by the collection, the results of which are usually available one month earlier than particulars of total factory employment shown in Table 9.

Note. Tables 12 and 13 are based upon the records of the Commonwealth Meteorologist. The divisions correspond approximately with the statistical divisions shown on the map in frontispiece of the Official Year Book of New South Wales, each division being subdivided into two sectors indicated by the letters N, S, E, or W according as they constitute the northern, southern, eastern, or western portion of the division concerned. Normal Rainfall is based on a period ended 1929.

¶ Series revised since last issue. Box spring mattresses, previously included with "Inner Spring", are now included with "Wire". Wire mattresses include wire stretchers.

## BUILDING

## Notes.

1. "Value" represents the estimated cost of the building when completed (exclusive of the land).
2. Building is classified as "government" or "private" according to ownership.
3. The value of building approved is, for private building, the value of permits issued by local government authorities to build in that part of the State (covering all municipalities and the larger residential areas within shires) subject to building control by local authorities; and for government building, the value of contracts let or work commenced and day labour projects authorised by governmental authorities.
4. The number of houses and flats approved is, for private building, the number covered by local authority permits to build; and for government building, the number covered by contracts let and day labour jobs authorised by governmental authorities.
5. Some building in rural areas is excluded.

# No. 46. Regular Air Services Terminating in New South Wales and Operated by Australian-owned Airlines\*

These statistics, compiled by the Department of Civil Aviation, show Oversea, Interstate, and Intrastate Services separately. Where a journey extends over more than one of these services, particulars of passengers, freight, and mail carried are duplicated in the statistics. The Oversea Services include all traffic carried over stages outside Australia.

## No. 71. New Money Capital Raised by Australian Companies

These statistics relate to new capital raised by companies incorporated in Australia and the Australian Territories, distinguishing between companies listed on the Australian Stock Exchanges (*listed companies*) and all other companies (*unlisted companies*). *New money raised* is the net amount of cash transferred from the investing public to the companies, and consists of the total amount of cash received by the companies less the amounts not involving a transfer of funds from the investing public (cash subscribed by associated companies, and other cash subscriptions used to redeem shares, debentures, etc. or to purchase existing shares, debentures, etc. in other companies). Borrowings by bank overdraft and temporary advances, and deposits accepted by banks, insurance and pastoral companies and building societies are excluded from the statistics.

## No. 72. Index of Prices of Shares on Sydney Stock Exchange

This index relates to ordinary shares of the principal companies (excluding banking companies) listed on the Sydney Stock Exchange whose business in New South Wales is extensive.

The prices of individual shares are unweighted, and each group average is the mean of the average monthly prices per £1 of paid-up capital. The aggregate index is the average of all the shares included in the groups with the addition of 34 miscellaneous shares. There is no base period as the index represents the ratio per cent. of the average prices of ordinary shares to their par values, adjustment being made where capital is written off or bonus shares are issued.

# No. 89. Weighted Average Minimum Weekly Wage Rates, New South Wales

- Notes: 1. The indexes of nominal wage rates, published in previous issues, have been replaced by new indexes of minimum wage rates.
2. The new indexes embrace a more representative range of occupations and are based on the occupation and industry structures in 1954. The wage rates used in the new indexes are the rates payable for a full week's work (excluding overtime), as prescribed in the relevant industrial awards, determinations, and agreements. The rural industries are excluded from the indexes.
3. The money amounts shown should not be regarded as actual current averages, but as an index of changes expressed in money terms.

\* For State Awards, the amounts shown to February, 1959 represent the basic wage together with so much of any margin and any further amount necessary to make the minimum wage payable equivalent to 75 per cent. of the basic wage for males. Following the increase in the basic wage to the 75 per cent. equivalent, the amount shown from February, 1959 is the basic wage exclusive of any margin. This change was applied in State Awards from different dates, beginning in March, 1959.

## No. 92. Wholesale Price (Basic Materials and Foodstuffs) Index Numbers

The 80 commodities included in this index are priced in their primary or basic form wherever possible, and as nearly as may be at the point where they first make effective impact on the Australian price structure. The prices used have, in the main, been obtained directly from manufacturers and merchants, and, with a few important exceptions, from **Melbourne** sources. Apart from locally produced building materials and one or two minor commodities, however, the price movements may be taken as representative of variations in wholesale prices of basic materials in most Australian markets. The weighting system adopted is based on estimates of the average annual consumption of the commodities in Australia during the years 1928-29 to 1934-35 inclusive.

### No. 93. Export Price Index Numbers, Australia

These index numbers are compiled from the prices of 20 commodities which normally constitute about 80 per cent. of all Australian exports. In general, the index numbers show price changes in the predominant market or markets, but average prices realised for exports are used for some commodities. The prices of commodities are weighted by the average annual exports (production in the case of gold) during the three years 1933-34 to 1935-36.

†† See note "Metropolis" below.

‡ From 1st August, 1958, Lower Hunter Shire was abolished and divided between Maitland and Newcastle Municipalities and Dungog and Patrick Plains Shires, and parts of Greater Cessnock Municipality were transferred to Maitland Municipality and Patrick Plains Shire.

§ From 1st July, 1958, Dungog Municipality and Wallarobba Shire were amalgamated to form Dungog Shire.

|| From 1st May, 1959, Wilcannia Municipality and part of the Unincorporated Area were amalgamated to form Central Darling Shire.

\*\* From 1st May, 1959, part of Balranald Shire and part of the Unincorporated Area were added to Waradgery Shire.

††† From 1st May, 1958, part of the Unincorporated Area was added to Carrathool Shire.

‡‡ From 1st May, 1958, part of the Unincorporated Area was added to Cobarr Municipality to form Cobarr Shire.

†††† From 1st June, 1959, part of the Unincorporated Area was added to Wentworth Shire.

## Metropolis

On 1st January, 1954, the boundaries of the Statistical Metropolis, as defined since 1933, were extended to embrace the Municipalities of Fairfield and Holroyd and the Shires of Sutherland and Warringah, together with portions of the Municipality of Liverpool and of the Shires of Baulkham Hills, Blacktown, and Hornsby. In Tables 94 and 97, the group "Metropolis" differs from the Statistical Metropolis because it includes particulars for the whole of the Municipality of Liverpool and the whole of the Shires of Baulkham Hills, Blacktown, and Hornsby.
